

Raszka Adrian

Software Developer

Date of birth: 08/06/2000
City: Jaworze, Silesia, Poland
E-mail: adrian.kosoglos@gmail.com
Phone number: +48 784456947

ABOUT ME

I am an ambitious student in full-time studies (6th semester) with strong interest and abilities in the IT area.

I have experience in both front-end and back-end development, which I gained through commercial projects and my own initiatives.

My strong suit is development, as I have dedicated a lot of time to it. However recently, I have been focusing on DevOps.

I started learning Docker (used for React, Node.js, MongoDB, Nginx), but i also deployed .Net app to Azure(using App Service, Redis, SQL Database, key Vault).

Going into an internship, I would love to extend my knowledge about programming in C# on the .NET platform. I am also willing to learn more about DevOps if that would not be a problem.

My primary tech stack:

- JavaScript (React, Vue, Node.js)
- .NET (ASP.NET MVC, Blazor Server)
- MS SQL, MongoDB
- Unity

Technologies I have used (but I am not fluent in):

- Python (Tkinter)
- Azure
- Docker
- Angular

EDUCATION

Uniwersytet w Bielsku-Białej

★ **IT - Software Engineer**

Engineer 10.2021 - now

Zespół Szkół Elektronicznych, Elektrycznych i Mechanicznych

★ **Mechatronics technician**

Secondary Education

Courses

- **Podstawy programowania sterowników PLC firmy Emerson**

By Astor

EXPERIENCE

FSS sp.zoo

1 year

Fornt-End Developer

Creating websites in React, Vue, node, SQL.
Working with maps, canvas, and external APIs.

Eaton Automotive Systems

3 months

Machine Operator

Additional Informations

- **English B2**
