

Raszka Adrian

Software Developer

Date of birth: 08/06/2000
City: Jaworze, Silesia, Poland
E-mail: adrian.kosoglos@gmail.com
Phone number: +48 784456947

ABOUT ME

I am a passionate and ambitious IT engineer with over a year of commercial experience and four years of experience working on personal projects. I specialize in both front-end and back-end development, with a strong focus on modern web and mobile technologies.

Recently, I have been expanding my knowledge in DevOps, working with Docker (React, Node.js, MongoDB, Nginx) and deploying .NET applications to Azure (using App Service, Redis, SQL Database, and Key Vault).

I am currently available immediately for a full-time position and eager to contribute my skills to a dynamic development team.

My primary tech stack:

- JavaScript (React, Vue, Node.js)
- .NET (ASP.NET MVC, Blazor Server)
- MS SQL, MongoDB
- Unity

Technologies I have used (but I am not fluent in):

- React Native, Expo
- Python (Tkinter)
- Azure
- Docker
- Angular
